INDEX

TO VOL. XXVII. (VOL. III. THIRD SERIES) OF THE AMERICAN  
JOURNAL OF PHARMACY.

Acetic acid and its use in perfumery . . . . .	79
Acid, carbazotic, for intermittents . . . . .	17
Acid, carbolic, as an antiseptic . . . . .	18
Acid, xanthosantalic . . . . .	115
Aconite, researches on . . . . .	445
Aconitic acid in <i>Delphinium consolida</i> . . . . .	152
Aconite and chloroform liniment . . . . .	515
Action of iodic acid on the vegetable alkalies . . . . .	57
Action of citric, tartaric and oxalic acids on cotton and flax fibres under steam heat . . . . .	83
Action of picric acid on the animal economy . . . . .	316
Active principle of <i>Centaurea calcitrapa</i> . . . . .	266
Advantages of a single uniform British <i>Pharmacopœia</i> . . . . .	11—
Advantages of Twaddle's hydrometers over those of Beaumé and Beck . . . . .	343
Adulterated oil of anised . . . . .	513
Adulteration of saffron, new . . . . .	318
Aldehyde in vinegar, wine and brandy . . . . .	111
Alcohol, its production from bicarburetted hydrogen, . . . . .	238
Alcohol and wood spirit, their relative fuel value . . . . .	264
Alcohol made from wood . . . . .	106
Alcohol, production of . . . . .	376
Aléurites triloba, or candle-nut . . . . .	235
Alkalimetry, new method of . . . . .	29
Almond soap . . . . .	561
Aluminium, manufacture of . . . . .	414
Aluminium and its chemical combinations . . . . .	319
Alteration of sugar dissolved in water . . . . .	430
Ambergris . . . . .	74
Ambrosial cream . . . . .	565
American Pharmaceutical Association . . . . .	185, 379, 479, 568
American Pharmaceutical Association, notice of . . . . .	283
American Pharmaceutical Association, proceedings of . . . . .	481—
American oil of peppermint . . . . .	221
American senna, examination of . . . . .	300

American extract of liquorice . . . . .	311
Amianthus as a substitute for lint . . . . .	317
Ammonia as a perfume . . . . .	78
Ammonia, on the manufacture of . . . . .	362
Amygdalin from peach kernels, preparation of . . . . .	226
Analysis of nitric and acetic acids . . . . .	47
Analysis of the tubers of <i>Dioscorea batatas</i> , grown near Paris . . . . .	261
Anhydrous persulphate of iron . . . . .	20
Animal charcoal, revivification of . . . . .	110
Anæsthesia of bees . . . . .	376
Anæsthetic principle of <i>Lycoperdon proteus</i> . . . . .	464
Aniline, preparation of . . . . .	450
Anise, falsification of oil of, with spermaceti . . . . .	472
Aniseed, adulterated oil of . . . . .	513
Annals of Pharmacy and Practical Chemistry . . . . .	186
Antidote for strychnia . . . . .	555
Antidote for poisonous fungi, tannin an . . . . .	535
Antidote for phosphorus, magnesia as an . . . . .	538
Antidote for mercury, sulphite of soda an . . . . .	537
Antidotes for copper, on the various . . . . .	537
Antimonial powder of the Dublin Pharmacopeia . . . . .	126
Antimoniate of quinia in intermittents . . . . .	318
Aromatic vinegar . . . . .	79
Artificial preparation of oil of cinnamon . . . . .	20
Artificial formation of taurine . . . . .	21
Artificial production of oil of mustard . . . . .	521
Artificial stones, production of . . . . .	523
Arum esculentum . . . . .	235
Arnica plaster . . . . .	514
Aromatic syrup of galls . . . . .	416
Arsenic, easy method of purifying sulphuric acid from . . . . .	417
Arsenious acid, compounds of iodide of potassium with . . . . .	270
Asclepias verticillata as a counter-poison . . . . .	452
Assafœtida, wine of . . . . .	216
Assay of iodine, new wet . . . . .	509
Asparagus as a diuretic . . . . .	557
Asparagin in <i>Robinia pseudo-acacia</i> . . . . .	528
<i>Bache, Franklin, M. D.</i> , on the advantages of a single British Pharmacopœia . . . . .	11
"    "    on the nomenclature of salts . . . . .	213
<i>Baker, T. Roberts</i> , on fluid extract of ergot . . . . .	302
Bakers' bread, chemical examination of . . . . .	442
<i>Bechamps, M. A.</i> , on the preparation of aniline . . . . .	450
"    "    new researches on starch . . . . .	139
Beer, substitute for tar- . . . . .	13
Behavior of palm oil when heated . . . . .	345
Belladonna, iodine for poisoning by . . . . .	534
Belladonna leaves, spontaneous decomposition of . . . . .	453

Benzoic acid from urine . . . . .	23
Berthollet, M., on the production of alcohol from bicarburetted hydrogen	258
Berthollet and De Luca, on the artificial production of oil of mustard . . . . .	521
Binks, C., improvements in the composition of paints . . . . .	175
Binoxide of lead, preparation of . . . . .	20
Bitumen springs of California . . . . .	377
Bituminous coal, volatile liquids produced from . . . . .	551
Black pepper of Western Africa, . . . . .	19, 267
Black stain for wood . . . . .	429
Blengini, M. G., on the falsification of cream of tartar with sugar of milk,	451
Block, M., on the preparation of pure carbonate of potash . . . . .	266
Blistering plaster, on a new . . . . .	499
Bolley, Dr., on the advantages of Twaddle's over Beaumé's and Beck's hydrometers . . . . .	343
Bolley, P. A., on saponin and senegin . . . . .	43
Bouis, J., on the oil of the purging nut . . . . .	141
Bouquets and nosegays in perfumery . . . . .	176
Bouquet d'Amour . . . . .	177
Bouquet des fleurs du val d'Andorre . . . . .	177
Bouquet de Caroline . . . . .	178
Bouquet de Flora . . . . .	181
Bouquet de Jockey Club . . . . .	181
Bouquet de Marechale . . . . .	275
Bouquet de la Reine . . . . .	275
Bouquet de Montpellier . . . . .	275
Bouquet of all Nations . . . . .	275
Bouquet du Roi . . . . .	275
Bourgarel, M., on the preparation of rennet and whey . . . . .	456
Brett, R. H., Esq., on the action of iodic acid on the vegetable alkalies . . . . .	57
Briant, M., on a new process for electro-gilding . . . . .	356
Brown Windsor soap . . . . .	562
Buckingham Palace bouquet . . . . .	178
Buchner, L. A., on a method of freeing sulphuric acid from arsenic . . . . .	417
Bunsen, M., on lithium and strontium . . . . .	359
Caffein, physiological effects of . . . . .	109
Caffein, on preparation of . . . . .	225
Caffein, reagent for . . . . .	272
Cake cochineal . . . . .	262
Calvert, Prof., on the purification of coal naphtha . . . . .	58
" " on the action of tannin and gallic acid on alumina mordents	82
Caldwell, Alonzo, on tincture of muriate of iron . . . . .	211
Camphor soap . . . . .	561
Cantharides among the lawyers . . . . .	86
Cantharides, amount of water in commercial . . . . .	86
Canavan, John, on fluid extract of red bark . . . . .	229
Cannabis sativa, preparations of, in India . . . . .	360
Caoutchouc, on the extraction of . . . . .	542

Caoutchouc of the Amazon . . . . .	545
Capaici, syrupus . . . . .	306
Capdsville, M., on orgeat syrup . . . . .	450
Caramania gum . . . . .	427
Carbonate of magnesia from Epsom salts . . . . .	365
Carbonate of magnesia from bittern . . . . .	367
Carbonate of magnesia from dolomite . . . . .	367
Carbonate of magnesia from magnesite . . . . .	370
Carbonate of potash, preparation of pure . . . . .	266
Carbolic acid as an antiseptic . . . . .	18
Carbazotic acid in intermittents . . . . .	17
Carson, Prof. Joseph, note on <i>Nectandra puchury-major</i> and minor as the source of piehurim oil, bark and bean . . . . .	385
Casper, Dr., on poisoning by colchicum and a test for colchicin . . . . .	539
Cassia marilandica . . . . .	300
Castor oil, its culture and manufacture . . . . .	99
Castor oil as a substitute for olive oil and lard in liniments . . . . .	516
Castor as a perfume . . . . .	76
Castile soap . . . . .	559
Catalogue of the class of the Philadelphia College of Pharmacy for 1854-'5 . . . . .	95
Cavendish Society . . . . .	185
Censer, the . . . . .	468
Charcoal as a disinfectant . . . . .	187
Charcoal as a medium of inhalation . . . . .	431
Charcoal, disinfecting properties of . . . . .	518
Chemical examination of <i>Chrysomela tenea</i> . . . . .	525
Chemical nomenclature . . . . .	308
Chemical nomenclature, remarks on . . . . .	114
Chemical history of lupulin . . . . .	24
Chemical examination of <i>Cubeba clusii</i> . . . . .	267
Chemical examination of bakers' bread of Philadelphia . . . . .	442
Chemico-legal detection of copper . . . . .	535
Chinese method of scenting tea . . . . .	529
Chinese potato, analysis of the tubers of the . . . . .	261
Chocolate in lozenges . . . . .	315
Chloride of ethyl-quinine . . . . .	324
<i>Chrysomela tenea</i> , chemical examination of . . . . .	525
<i>Cicuta maculata</i> , or water hemlock . . . . .	289
Cimicifuga, fluid extract of . . . . .	515
Citrate of iron . . . . .	297
Citrate of iron and quinia . . . . .	294
Citrate of magnesia, soluble . . . . .	317
Citron soap . . . . .	564
Civet as a perfume . . . . .	75
Circumstances modifying the action of chemical affinity . . . . .	326
Cinnamon leaf oil . . . . .	165
Cinnamon, artificial formation of oil of . . . . .	20
Coca leaves of Peru . . . . .	33

Cool naphtha, purification of . . . . .	58
Coal, improvement in obtaining the volatile products of . . . . .	551
Coal-tar creasote . . . . .	54
Cod-liver oil with quinia . . . . .	319
Cochineal, on a new variety of . . . . .	262
Cochineal of the Canary islands . . . . .	434
Colechicin, test for . . . . .	539
Colehicum, poisoning by . . . . .	539
<i>Colignon, L.</i> , on the active principle of <i>Centaurea calcitrapa</i> . . . . .	266
Composition of tannic acid . . . . .	49
Compound syrup of squill . . . . .	219
Compounds of arsenious acid with iodide of potassium . . . . .	270
<i>Constantin, M.</i> , on the emulsions of the gum resins . . . . .	61
Concentrated wine of assafetida . . . . .	216
Contributions to toxicology . . . . .	533
Conversion of cane into grape sugar in the syrup of iodide of iron . . . . .	393
Comia from <i>Cicuta maculata</i> . . . . .	292
Constitution of coal-tar creasote . . . . .	54
<i>Copney, William</i> , on nitrate of silver and tannic acid in pills . . . . .	413
Copalche bark . . . . .	161
Corydalis formosa, or Turkey corn . . . . .	205
Corydalia . . . . .	207
Corrosive sublimate, value of albumen and hydrate of magnesia as anti-dotes for . . . . .	533
Court nosegay perfume . . . . .	178
Cotton plant root, its use in medicine . . . . .	419
Copper, detection of, in medico-legal analyses . . . . .	535
Creasote from coal-tar . . . . .	54
Cream of tartar, its falsification with sugar of milk . . . . .	451
Cream syrups for mineral water . . . . .	407
Cream syrups . . . . .	500
<i>Crew, B. J.</i> , on a substitute for tar beer . . . . .	13
Culture of the coca in Peru . . . . .	35
Culture of cochineal in the Canary islands . . . . .	434
Culture of castor oil in Illinois . . . . .	99
Cubeba clusii, or black pepper of Western Africa . . . . .	267
Cucurbita lagenaria, a purgative gourd . . . . .	235
<i>Cutting, James A.</i> , patent for photographs on glass . . . . .	548
Danger of keeping tobacco in leaden boxes . . . . .	472
<i>Daniell, W. F., M. D.</i> , on the frankincense tree of Western Africa . . . . .	338
<i>Daniellia thurifera</i> . . . . .	339
<i>Darby, Stephen</i> , charcoal as a medium of inhalation . . . . .	431
<i>Delf's, Prof. W.</i> , on a reagent for caffein . . . . .	272
Delphinium consolida, aconitic acid in . . . . .	152
Deodorized alcohol . . . . .	379
Deodorizing and disinfecting properties of charcoal, lime, sand and gravel . . . . .	518
Depilatory . . . . .	62

<i>Deville, H. St. Claire</i> , on the manufacture of aluminium	414
"    "    on silicium and titanium	440
